#### **HOUSE PLANS**

House plans are required for every family you will have in the each group. A complete set of house plans consists of the plans and blueprints (including a foundation plan, floor plan, cross section, front and rear elevations, and right and left side elevations), specifications (which include a Description of Materials-Form (1924-2) that can be obtained from the county office); and detailed cost estimates. (Blank 1924-2 attached)

#### **Codes and Standards**

Local and state building codes set the minimum for acceptable material and construction standards for structural integrity, plumbing, heating, electrical installation, windows and ventilation, and safety issues.

You do need to research building codes for each group due to the fact that each community has their own unique house design regulations, building codes do change, and the setback requirements can differ from site to site.

As well as conforming to state and local building codes, follow Rural Developments standards. These standards require the adherence to their thermal performance standards (1924-A, Exhibit D) and the dwelling must be affordable to the family, not have a pool, and contain no income producing facilities.

#### **Obtaining House Plans**

There are several ways to obtain house plans. One of the easiest is to go to your local building supplier and pick up some house plan books. Usually inside the book they list a place you can call to ask questions about certain plans or to order blueprints. Another tactic of obtaining house plans is to go to your local Rural Development office and talk to the Community Development Manager. Ask if he/she can give you names, address and phone numbers of architects that have drawn approve able blueprints in your area. Many of these architects are very familiar with Rural Development and their requirements.

#### Cost of obtaining plans and what plans to obtain

Another item to take into consideration is the cost of obtaining the house plans. All options should be carefully checked out to determine which is the better deal. At the very minimum, blueprints should be made up of 5 pages: the first page being a foundation plan, then floor plan; cross section; front and rear elevations and left and right side elevations. Other pages may consist of electrical, plumbing and mechanical plans. The more information you have on your plans the easier it will be to get them approved.

#### Standardize Plans

When obtaining house plans, self-help organizations should standardize the plans as much as possible. For example, the cabinet and kitchen arrangement in the houses can be standardized, as can the size and arrangement of the bathroom. The purpose of standardization is two fold: 1.) The cost estimate and use of materials in the houses will remain the same and 2.) The construction supervisor and participant families will become familiar with the plans during construction. It is not recommended that a sponsor offer families a large variety of plans to choose from. It is better to limit the plans offered to a reasonable number. For example, it is recommended that self-help grantees provide a limited selection of four basic plans in order to simplify the management required to operate a successful program. These four basic plans should be of varying living areas and varying number of bedrooms, depending on the sizes that the grantee finds most in demand based on a survey of the target area. Keep in mind that house plans should be prepared in advance of the formation of the first group of self-help families. After a family has chosen a particular house design, copies of the blueprints should be given to: Rural Development in the 502 application; the local building official when applying for a building permit; the construction supervisor (who will be in charge of the construction of the house): and the family file in the sponsor's office.

#### How many copies will you need?

You will need four copies of the house plans. One copy will go to Rural Development in the applicant's 502 loan application; one will be needed in the local building office when applying for a building permit; the construction supervisor will need a copy with which to build; and one needs to be kept in the family's file in your office.

#### STAFFING NEEDS AND HIRING SCHEDULE

Having a good program, a sound budget, and a committed Board is only part of the equation. Your self-help organization also needs qualified and motivated staff. If you are building a new program, you need to address several personnel issues. These issues include determining staffing needs, developing job descriptions, developing personnel policies, and recruiting the staff.

You are required to describe your proposed hiring schedule, and availability of prospective employees. You are also required to include complete job descriptions and resumes of the persons selected to fill each position for the grant.

#### **Hiring Schedule**

A hiring schedule is required to be included in the final application. This schedule should include all of the positions that you plan to pay out of the self-help housing grant funds. Indicate which of those positions have already been filled and the anticipated hiring dates of the remaining positions. Indicate whether these individuals will work full or part time.

#### **Availability of Prospective Employees**

In order to prove to Rural Development that there are potential candidates whom you intend to hire, include the resume and a letter of commitment from the candidate. If your organization decides to wait until the grant is approved before interviewing and choosing applicants, include a description of how to find needed staff and a brief report on available personnel in your area.

Traditional Self-Help Staff Positions

A typical small self-help organization traditionally employs the following staff:

- Executive Director or Project Director: This person has the responsibility of running and managing the self-help housing program.
- Group Coordinator: This staff member recruits the families; screening them for the program, counseling and training them, helping them to fill out the required forms, etc.
- Secretary/Bookkeeper: This person has the important responsibility of record keeping for both the 523 Grant funds and the family 502 loan accounts, in addition to other duties.

In initial staffing you may want to use the traditional self-help positions. However, each organization has its own unique program goals and objectives. Tailor the tasks and skills of each position to your program.

#### DEVELOPING JOB DESCRIPTIONS

When you face the task of developing job descriptions, focus on the goals and objectives of the program, then determine the asks and activities required to achieve those goals. Determine the length of time needed to complete each task, and the skills required by each task. Then develop a list of staff positions and the tasks to be completed by each position. At that point it is easier to make the decision on whether that position needs to be full time, etc. After conducting a salary survey (if one is needed) set salary ranges for each position. Then you can develop an organizational chart clarifying the decision-making process.

The following is a list of major Self-Help Tasks. This list can be used as a starting ground to help you decide who will be responsible for each task.

- · Overall program oversight
- · Supervision and coordination of personnel
- · Management of day-to-day operations
- Locate land for the program
- · Identify and secure funds for program operations
- · Recruitment of families
- Assist with application and closing
- · Coordinate and conduct preconstruction meetings
- · Counsel families with budget or financial problems
- Recruitment presentations to the local community
- 502 loan accounting
- 523 grant accounting
- Approval and check authorization
- General office and clerical duties
- Preparation of quarterly, monthly and year end state and federal departments
- Maintain administrative records (leave, mileage, time, etc.)

#### AUTHORIZED REPRESENTATIVE OF APPLICANT

Give the name, address and official position of your representative(s) authorized to act for you and to work with Rural Development. The representative(s) can be the same representative(s) named in the Resolution.

Example:

The following is the authorized representative for Self-Help Housing, Inc. They are authorized to act for us and work with Rural Development.

10.08% for the construction employees.

Unemployment Compensation is based on the present rate of 1.83% for salaries. Medical/health insurance for the four full time employees is expected to cost a total of \$9,500 per year. We feel the full-time employees should be provided with health care benefits since they have very little long term job security and no

retirement benefits except social security.

TRAVEL: Our travel mileage reimbursement of .36¢ per mile for local travel does not

exceed the approved government rate. This includes traveling from the agency office to the construction site, to Rural Development, as well as other location as needed. The approximate number of miles used per month is not planned to

exceed 500.

The remainder of the line item will provide for our staff to attend some of the regional and area training conferences sponsored by our regional contractor, in addition to other relevant trainings. The amounts included are only estimates as no knowledge is available at this time regarding the number, length or location of

conferences.

RENT: Rental estimate is based on rates advertised in local newspapers and from

discussions with local realtors for the minimum amount of office space needed. A

modest office will be sought.

SUPPLIES: This item will allow for the purchase of miscellaneous office supplies and

equipment such as paper, pens, pencils, ledger sheets, staplers, calculators and

used desks, chairs, filing cabinets, etc.

#### **EQUIPMENT:**

Equipment and tools - Will allow for the purchase of power saws, electric drills, saws, step ladders, wheel barrows, staple guns, tape measures, etc. to be used by the participating families.

Non-expendable equipment and tools - we have established a cost per item of \$100 or more for non expendable personal property. This item will allow for the purchase of two typewriters, one table saw, two extension ladders, scaffolding, one miter box saw and other items that may be needed.

**EQUIPMENT** 

MAINTENANCE: This item will allow for repair of equipment, furniture and tools.

**EQUIPMENT** 

LEASE/RENT: This item will allow for the lease of a copier for use in the office, as well

as periodic rental of construction equipment, i.e., a generator, a heater.

TELEPHONE/POSTAGE: This will allow for the installation of 4 telephone instruments on

two lines and for necessary monthly and toll charges. Calls to many suppliers in this area, RD and the regional contractor are toll

calls. This will also include the cost for internet access.

The postage will be used for mailing agency and family checks,

reports etc.

INSURANCE: This will allow for limited general liability insurance, which will

include board liability and for coverage on construction and office equipment. Costs are based on discussions with local agents. A

Surety bond is also included in this item.

AUDIT: As required, this will allow for a CPA's annual detailed audit of

grant accounting records and family loan records. This cost is based on discussions with two local accountants and other grantees

in the state.

### INDIRECT OR DIRECT COST POLICY AND PROPOSED INDIRECT COST RATE

If your agency is a single purpose agency and the only program they are planning to operate is self-help, a direct or indirect cost policy is not required. If this is the case, simply include a statement indicating such.

If your organization is multi-funded and has already negotiated an indirect cost rate, you must submit this documentation with the 523 Application. This is all the documentation required.

If your organization has never obtained an indirect cost rate, you must submit your indirect or direct cost policy with the 523 Application. The negotiated indirect cost rate or some type of documentation from DOI indicating an indirect cost rate is not needed but must be submitted with the 523 Application. Grant approval will be held up until this requirement is met.

#### FIDELITY BOND

A Fidelity Bond offers an employer protection against losses that are caused by their employees' fraudulent or dishonest actions. This form of insurance can protect against monetary or physical losses. The Bond coverage can include fraudulent trading, theft and forgery.

Despite its name, a Fidelity Bond is solely an insurance policy and neither tradable nor can it accrue interest. Specialized forms of Fidelity Bonds may cover particular instances. This form of insurances is considered a component of a company's risk management strategy.

RD's Self-Help Program requires a Fidelity Bond for the Grantees and RD's protection.

To the extent permissible by State or local law, rules, or regulations such standards will provide for penalties, sanctions, or other disciplinary actions to be taken for violations of such standards.
- (p) Grantee shall not hire or permit to be hired any person in a staff position or as a participant if that person or a member of that person's immediate household is employed in an administrative capacity by the organization, unless waived by the State Director.
